## Digital Picture Player

### Digital Masterpiece

The Brilliance Digital Picture Player provides an intelligent solution for modern homeowners to display all their favourite images without covering their walls in traditional picture frames. This innovative product has a high resolution TFT LCD screen, and is capable of playing your photos and movies in a continuous slideshow direct from your memory card. No printer or PC, ink or paper required - you'll never need another picture frame or photo album!

- \* BRIGHT 15" TFT LCD DISPLAY \* PLAYS 7 DIFFERENT TYPES OF MEMORY CARD \*
- \* PLAY ALL YOUR DIGITAL PHOTOS AND MOVIES \* VIVID XGA 1024 X 768 RESOLUTION IMAGES \*
- \* VIEW JPEG, MPEG AND AVI \* SIMPLE "PLUG & PLAY" OPERATION \*
- \* WALL HANGING OR FREE STANDING \* PORTRAIT OR LANDSCAPE \*
- \* MATCH FRAMES TO YOUR HOME DÉCOR \* INFRA RED REMOTE CONTROL

### Versatile

Multi screen versions (all playing different images independently) and high brightness screens are available to order - ideal for use in high ambient light applications.
